

Good fortune – Good luck

Some say that Christmas, is the best time year 'round
While those who do suffer are those without sound

Candles burn brightly and streets all lit up
We wish you the best, good fortune good luck

Let's begin a better world, beyond fantasy
In which we help each other and reach for harmony

Let us start a new life, but not just you and me
In which we help each other, to a brighter destiny

Travelled all over, searched ev'ry-where
Found so much beauty, love and despair

Now what I do feel like, is to find the right place
And be there together, heart to heart, face to face

Let's begin a better world, beyond fantasy
In which we help each other and reach for harmony

Let us start a new life, but not just you and me
In which we help each other, to a brighter destiny

Let there be light, may clouds turn away
Giving directions to those gone astray

Let's end the hunger, let's end the pain
Bring in resources, to those without rain

Let's begin a better world, beyond fantasy
In which we help each other and reach for harmony

Let us start a new life, but not just you and me
In which we help each other, to a brighter destiny

Some say that Christmas, is the best time year 'round
While those who do suffer are those without sound

Candles burn brightly and streets all lit up
We wish you the best, good fortune good luck

Let's begin a better world, beyond fantasy
In which we help each other and reach for harmony

Let us start a new life, but not just you and me
In which we help each other, to a brighter destiny

Repeat:

Let's begin a better world, beyond fantasy
In which we help each other and reach for harmony

Let us start a new life, but not just you and me
In which we help each other, to a brighter destiny.
